

Got Barcodes?

If you are looking for a geospatial inventory solution for barcoded assets, look no further. Tri-Global introduces **BarcodeMapper**, a fully integrated barcode database tool for ESRI™ ArcPad™.

BarcodeMapper allows any ESRI Geodatabase or shapefile to become barcode editable and searchable.

- Sign Inventories
- Utility Inventories
- Park Inventories
- Chemical Inventories
- Emergency Management
- Disaster Recovery
- Asset Tracking
- RFID Coming Soon

"...this solution increased our productivity from mapping 6 signs per hour to over 33 signs per hour..."

*Jacob B.
City of McAllen, Texas*
